

ASV

Do you want to make a difference?

Do you want to join an exciting, dynamic and rapidly expanding industry?

Job title: Project Planner

L3 ASV is looking for a Project Planner to join the growing team in Portchester, Hampshire.

Are you an experienced Project Planner looking to take on the next step in your career? Can you demonstrate your experience of using MS Project to an advanced level? If so, we have a really exciting opportunity to join our Projects team.

We are looking for an enthusiastic, proactive individual who will assist the Projects team in the planning, estimating, scheduling and progression reporting of each project, inputting and maintaining the information accurately using MS Project. This position would be well suited to an meticulous individual, able to demonstrate their ability to work with a very structured approach to planning.

You would be joining a team who believe very strongly in our company values; our people consistently demonstrate a passion for what we do, honesty, ownership and a team ethos.

About L3 ASV:

We are a fast paced, rapidly expanding, world leading company specialising in the design, build and operation of unmanned boats and their control systems. We operate in the military, energy and research sectors and build innovative, technologically-advanced products to solve difficult problems.

Our head office just outside Portsmouth, Hampshire provides a perfect location for the development and testing of our products.

Our success is due to the people we employ – if you're smart, adaptable, highly productive, a team player and relish the challenge that comes with solving difficult problems then L3 ASV is for you.

Location:

Portchester, Hampshire UK

The role:

The Project Planner will be delivering key information to the business, providing detailed and accurate information, enabling us to direct resources efficiently and meet our milestones.

ASV

You will be working within the projects team, creating detailed plans and maintaining the up-to-date master schedule with accurate and real-time information, proactively highlighting relevant project changes to stakeholders using agreed processes of reporting and providing input to project progress meetings as required.

Essential:

- Experienced Microsoft Project user.
- Meticulous and structured approach.
- Detailed planning experience.
- Able to prioritise workload and handle multiple tasks at one time.

Responsible to:

Programme Manager

Salary:

Dependent on experience.
