C-Targets are a range of lightweight, easily deployed, highly manoeuvrable marine targets used for naval gunnery training, weapons testing and ship command and control assessments. The C-Target 6 can be used as a direct fire target or as a tow boat for inflatable targets. The vehicle can be customised to resemble specific craft and is configurable between manned and unmanned modes.

**KEY FEATURES**

- Highly survivable and repairable aluminium hull
- Wide range of optional visual, radar & thermal enhancements
- Optional console and seating module for conventional manned use
- Remote operation through direct control or programmable console
- Can operate individually or as part of a swarm
- Operated using ASView-T Control System
- Can be customised to resemble specific craft and configured as a low cost ASV with the addition of upgraded cameras and control functionality

**APPLICATIONS**

- Naval gunnery training
- Weapons and platform trials
- Ship command and control and pre-deployment assessments
- Surface-surface and air-surface applications
## TECHNICAL SPECIFICATIONS

### C-Target 6

<table>
<thead>
<tr>
<th>Specification</th>
<th>Details</th>
